DATE: September 9, 2026

SUBJECT: Middle Pecos GCD's Compiled Comments after DFC Hearing Required by Texas Water Code § 36.108(d-2) and (d-2a)

On Tuesday, July 21, 2026, at 10:00 a.m., at our District's office, our District held a hearing on the proposed DFCs approved by the GMA 7 districts. Our hearing notice was posted in accordance with Texas Water Code §§ 36.108(d) and 36.063. In the notice, we included a statement that a 90-day public comment period began on May 5, 2026, which as you know is the date the proposed DFCs were mailed to the GMA 7 districts.

As of today, more than 120 days have passed since proposed DFCs were mailed.

We did not receive any written or oral comments during the public comment period. Consequently, there are no summaries of public comments, supporting materials or new or revised groundwater availability model run results, and no suggested revisions.

As required by § 36.108(d-2a), we will post this memo on our District's website for not less than 30 days, and before GMA 7's next meeting at which time we will consider any district's suggested revisions to the proposed DFCs, receive public comment, and consider final adoption of the DFCs for GMA 7.
